Dear Parents,

12.11.18

If you would like to be a volunteer reader in school, please would you make yourself known to the office.

Depending on the number interested, we will contact you to carry out a DBS check and to offer some initial training on how get the best out of a child whilst reading with them. (If you have recently been a reader, we may not need to complete another DBS application, nor will you require further training.)

For those who may be new to the role, training will help you engage the child more in the text, improve their decoding and inference abilities and increase their desire to read. This will be conducted as a group, with the other new volunteers in a fun and relaxed way.

Please be aware that all volunteer readers are placed in classes, which do not contain their own children or relatives.

I hope several of you will be interested in participating in a very rewarding and worthwhile experience.

Yours sincerely,

Bradley Young  
**Headteacher**
