

SCIENCE

Our block of Science will involve exploring and sorting living and non-living objects and identifying how they are similar and different.

Computing

We will be learning about algorithms, codes, programming and debugging. Then using these skills to make a toy (Bee-Bot) move.

Phonic

In this half term we will be completing Phase 5 letter and sounds through Storytime Phonics. During this half term, we will be learning alternative sounds (phonemes that sound the same, but spelt differently)

Year 1

Spring 1

Overview

Maths

During the Spring 1 the main Maths focus will be Number. We will begin with addition and subtraction within 20. Then progress to Place Value within 20 and looking at multiples of 2, 5 and 10.

English

To start this half term we will be focusing on letters and Postcards. Then continue to writing recounts.

We are beginning to use precursive writing (having a lead into and exiting a letter to begin joining up our handwriting) and reminding children to use capital letters, finger spaces and punctuation with more accuracy.

Music

With Mrs Loveland Yr1 will be developing skills to enable them to listen and appraise music.

Physical Education

Year 1 will be doing indoor Dance on Tuesday afternoons and Outdoor ball skills on Thursday afternoon. Please ensure your child has suitable indoor and outdoor footwear, spare socks and warm clothing.

PSHE

We will be focusing on British Values.

History

Focusing upon local History – Great Yarmouth bridge disaster
