

## KS1 & KS2 (Years 1-6) Transition Activity Menu

### Transition Menu – All About Me!

This menu aims to give you a chance to get to know your new teacher and let them get to know you. Try to complete all the activities by the end of the week. Be imaginative and inventive about how you present your work.

#### All About You

Fill in the section included in the booklet so I can learn all about you! If you'd like to add more information about yourself that doesn't fit any of the headings, then please do!

#### New Year: New Teacher

This week you should get a chance to virtually meet your new teacher through a video and find out a bit more about them. Watch the video of your teacher found on our [Homefield VC Primary Facebook](#) page and complete the information sheet all about your new teacher. Write down a list of sensible questions that you have about moving into your new year group. Think about any concerns or worries you may have and what you are feeling excited about.

#### How Imaginative Can You Be?

1. Think about an animal that best represents you. Draw it and write an explanation about why.
2. If you could visit anywhere in the world, where would you go and why?
3. If you could have your favourite breakfast, lunch and dinner, what would they be? Draw and label them.
4. If you could meet any celebrity in the world, who would it be and why? Write down five questions you would ask them.
5. If you could learn to do any new activity, what would it be and why?

#### My Family Tree

Look at the Powerpoint all about family trees. Using one of the family tree template sheets fill in the names and pictures of your family members. Tell us all about your family and who you live with at home. You can include pets too! You could create your own poster or Powerpoint. Have a go at drawing your family members or copy and paste some pictures of them. You can choose whatever information you would like to give us and it is up to you how you present it.

#### What Do I Look Like? (Art)

Find a photo of yourself. Cover half of it and try to draw the other half yourself with a pencil. Have a look at these examples below.

#### Where Do I Live?

Look at the area map of Bradwell. Can you find where you live? On blank paper, use a ruler to draw your own map. You can put on the road you live on and the nearby roads. If you live near school, you could also draw the route you take to school. How long does it take you?

- Can you label the shops?
  - Parks?
  - Main Roads?

## KS1 & KS2 (Years 1-6) Transition Activity Menu

- Other Places you like to visit?
- Make a key for your map and add colour.

### Time Capsule Task

Fill in the time capsule sheet all about your thoughts and feelings now. Then, keep it safe so that this time next year, you can check over what you wrote and see what has changed and whether you have achieved your goals. Try to set yourself three goals minimum. You could do two school ones and a personal one such as:

1. I'd like to make my handwriting neater.
2. I'd like to know all of my time tables to 12x12 and speed up my time on Times Table Rock Stars.
3. I would like to learn how to swim underwater.

### Thinking Mathematically

Can you complete the activities found at these websites? Feel free to try others you find there.

KS1:

<https://nrich.maths.org/5638>

KS2:

<https://nrich.maths.org/6554>

### Biggest Number

Using any of the four operations (+, -, x & ÷) use facts about yourself to try and make the biggest number.

Facts you could use:

- Number of siblings (brothers and sisters)
- Number of people in your whole family
  - Ages of family members
  - Shoe sizes

What other facts can you think of?

## KS1 & KS2 (Years 1-6) Transition Activity Menu

What you are looking forward to next year?  
It could be a particular topic; having new classmates or learning a new life skill.

These activities should give you the chance to tell your new teacher all about yourself. Hopefully, you will really enjoy this week's work. It is up to you how you choose to structure your week. You may like to do two activities a day and then one on Friday or if it's easier for your household, you could work over three or four days to get all the activities done. If it is tricky to send your work to your new teacher, ask an adult to email the work to them at the following addresses:
