

School Action Plan

Child Copy

How can we make our school better?

- **Help our school provide learning virtually so we can learn from home just as well as we can learn in school.**
- **Make further changes to our curriculum so that we have a stronger understanding of the “Diversity” in the world around us.**
- **Create opportunities where we can learn about different careers and jobs that we wish to have in our futures.**
- **Make sure that what we achieve in Reading, Writing and Maths keeps getting stronger across the school.**

What are we going to do?

- **Help our new Governors understand how we do things across the curriculum, so that they know the school better.**
- **Help our teachers learn all they can so they can become better school leaders and teach us even more.**
- **Use money from the Government to help us catch-up with any learning we missed.**
- **Make sure we look after one another, talk about our feelings openly and use the family and friendship vision of the school to support each other with our work.**
- **Introduce a way to help us get better at guided reading; improving our comprehension skills further and developing the greatest love for books.**
- **Welcome visitors virtually from different jobs to explain what they do and how**
- **Get smarter at how we remember all the important parts of writing so that we use better words, stronger grammar and more effective punctuation so that our sentences become more interesting.**
- **Help us to keep our school a place where our behaviour is exemplary, our attitudes to our learning are strong and we work together with compassion and forgiveness to get along.**
